Omnikey 5321

OVERVIEW

The OMNIKEY 5321 reperesent the ideal combination of contact and contactless technology in a single device. Featuring a dual-interface, PC-linked reader that reads/writes to both a 13.56 Mhz contactless smart card and virtually any contact smart card, the OMNYLEY 5321 economically support end-user environments where both contact and contactless smart card technologies are used.

Utilizing contactless smart card technology for PC-linked applications,the OMNIKEY 5321 device allows users to experience convenience, speed and security of contactless technology for applications.

SPECIFICATIONS

Product Type	: Smart Card Reader/Writer
Brand Name	: HID
Manufacturer	: HID Global Corporation
Product Model	: 5321
Product Name	: OMNIKEY 5321 Smart Card Reader/Writer
Product Line	: OMNIKEYManufacturer
Height	: 1"
Width	: 3.8"
Color	: Dark Gray
Length	: 4.5"
Approximate Interfaces	: USB 2.0
Media Supported	: Smart Card

FEATURES

1. Compliance with PC/SC for contact, contactless and SAM card interfaces
2. Compliance with CCID
3. Supports new Mifare Plus and Desfire Ev1
4. Read/write speed of up to 848 kbps for contactless interface
5. Supports extended APDU
6. Supports memory cards such as SLE5528, SLE5542, etc.
